

JD

Position: .Net Developer (Classic ASP)

Exp: 5 - 10 Years

Location: Pune

Notice Period: Imm. (max. 15 days)

Job Description:

Responsible for the analysis, design, coding, testing, and implementation of enhancements to custom web applications in the managed care order-to-cash applications. To be successful in this role, a candidate must be proficient in SQL, [ASP.NET](#), and the complete command of the Microsoft web development stack. Responsibilities will be approximately 70% development and 30% analysis and support.

The ideal candidate:

- 5-8 years of advanced programming / web development experience.
- Excellent communication skills both written and verbal. Must be able to effectively communicate with business sponsors, users, business analysts, other programmers, and managers. Must have the ability to document procedures when necessary.
- Can handle changing priorities in demanding situations.
- Detail oriented
- Positive attitude
- Excel in a team environment (Agile)
- Ability to understand business concepts
- Excellent problem-solving capabilities
- Ability to work independently on multiple assignments with minimal supervision

Required skills:

- 3 to 5 years using JavaScript frameworks such as jQuery, Ext JS, or equivalent
- 5 to 8 years object oriented programming experience using .NET/Visual Studio (ASP, [ASP.Net](#), and C# and VB script and [VB.net](#) etc.)
- 3 to 5 years' experience in Classic [ASP.NET](#) 3.0
- Experience with distributed or centralized source code repositories (GIT, TFS, SVN, etc.)
- XML coding
- At least one-year experience with SOAP UI
- 5+ years writing medium to high complexity T-SQL queries, or equivalent
- 5 to 8 years developing and consuming web services
- Experience with Microsoft Office suite.
