SUITE OF SERVICES: EVERYTHING YOU WILL POSSIBLY NEED

The three pillars of our services are – Modernization, Automation, and Transformation.

Equipped with benchmark IT services and business-critical solutions, Acuvate streamlines its target domains while shaping productivity, communication and collaboration at an entity level.

VALUE PREPOSITIONS: REVOLUTIONIZING DIGITAL TRANSFORMATION, ONE ACCELERATOR AT A TIME

Efficiency. Agility. Enhanced ROIs.

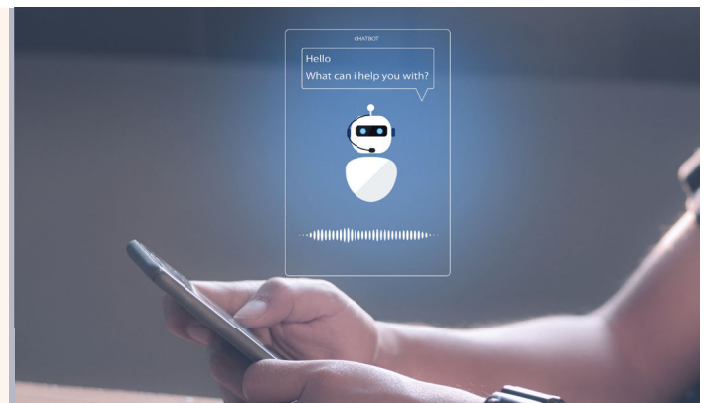

The above guiding principles help our customers gain customized solutions that are robust and risk-free. These solutions drive their transformation journeys.

Our proven framework of automation solutions and AI-driven managed services are a bundle of the following accelerators:

An enterprise chatbot building accelerator platform that empowers organizations to create, build, train, deploy, and manage customized chatbots, & helps in creating exceptional employee/customer experience. Our chatbots can acclimate to different use cases that enterprises can then deploy.

BotCore's self-service option and minimal feed time (4 weeks) to adapt to your system will transcend all your expectations from a platform that garners business performance through

Appcelerate assists organizations with building and deploying business-critical applications with ease. It starts with assessing your business needs and recommending a blueprint for migration. Subsequently, it automates and finally accelerates the migration process as per your requirements.

Our in-house migration and governance solution is the avenue to identifying innovative possibilities with your new platform. Using our recommendations on a plethora of value drivers, you can decide the optimal environment for migration and mitigate the risks in relation to it.

The best part? You can make a data-backed and objectively analyzed decision within 4 hours, in case you are confused about staying on-premise or going online!

A collaborative digital workplace has become the goal for every modern organization. With its customized tools and enterprise-wide discoverability, Mesh provides an intuitive interface to fulfill this goal using Azure Cognitive Search Services.

This single platform should be the go-to for every employee, no matter where they fall on the corporate hierarchy. Most organizations are looking for a one-stop transparent and end-to-end resource sharing system, and Mesh delivers.

Wave is an intuitive and engaging idea management software, helps you capture, collaborate, evaluate, refine, select, and nurture ideas from anyone, anywhere. It helps capture the innovative ideas of your employees. It provides a platform to submit ideas, collaborate, evaluate, prioritize and select ideas.

Compass is a uniquely curated single-suit trade promotion optimization solution. It utilizes Machine Learning and Advanced Analytics to generate promotions and insights that will perfectly align with your business objectives.

With the vision of "minimum spend, maximum ROI," Compass is the end-to-end framework you need to emerge as a market leader.

Employee Essential Apps

This all-inclusive Suite facilitates a conducive work environment. It simplifies and streamlines office operation requirements so that teams across the board can collaborate and deliver to their highest potential.

Hybrid work environments have become the theme since 2020, and this Suite supports the creation of the perfect hybrid workplace.

WHEN OUR CUSTOMERS WIN, WE DO TOO

We have won multiple accolades and mentions for our work in various domains.

Our accomplishments are a testimony of our advancement in software services and AI accelerators and the trust instilled in us by customers and the technology ecosystem.
