

DATA MIGRATION & MODERNIZATION SERVICES

MODERNIZE. AUTOMATE. OUTPERFORM.

Businesses Run on Data. Everything Else Can Wait.

Rapid decision-making requires right insights at the right time. In the face of disruption, your business needs all actionable insights to deliver products, services, decisions effectively. Business users need to be enabled to leverage data in everyday decisions. The world is moving towards predictive and prescriptive analytics. Disparate data sources and dated data structures become an impediment in this. You need to build modern and relevant processes in how your source, store, interpret, and consume data. Agile & modernized data estates enables this.

With Acuvate's data migration and modernization services, you can enhance customer experiences, drive top-line growth, reduce costs and gain competitive advantage. But more importantly, you have a partner you can trust, who understands your unique business needs and delivers tailor-made migration and modernization framework that works best for you.

Kickstart your migration and modernization journey with a partner who gets you.

Challenges Are Milestones. Success is Acting on time.

Concerns in data migration and modernization journey	Data migration and modernization with Acuvate addresses these concerns through
 Source data complexity Multiple legacy systems at source and poor understanding of data and their dependencies.	 Simplified administration Qualified experts analyze, advise, supervise entire migration. Minimized version control, simple backup & recovery mechanisms.
 High cost Expensive upfront hardware & software costs.	 Optimized cost Predictable, monthly operating cost, and On-Demand and Pay per use Cloud benefits.
 Data loss or corruption Risk of losing or corrupting business-critical data during migration.	 Higher scalability Highly scalable compute & storage resources with minimal capacity constraints. Automated backups, synchronous replication, periodic snapshots.
 Security threats, data leaks Security threats or data leak/access by unauthorized users.	 Advanced security Highly secure with robust access control, and encryption at rest and in transit etc.
 Lack of skills Organizations often don't have inhouse skills to make the most of data migration and modernization.	 Upskilling workshop We bring your teams up to speed to make the most of data migration and modernization.

Data Migration and Modernization – The Sum of Many Parts.

Assessment Services

Start your migration and modernization journey with facts. Understand migration readiness, analyse reports to identify potential issues, have solutions at hand for identified issues.

Database Migration

Flexibility defines our database migration services. Migrate to on premise or Azure. Leverage our AI-based tool Optimum for a smooth migration experience.

Business Intelligence Modernization

Build a data-first organization by modernizing existing BI systems or build a brand new end-to-end enterprise BI system. From assessment to determining data quality, we have you covered.

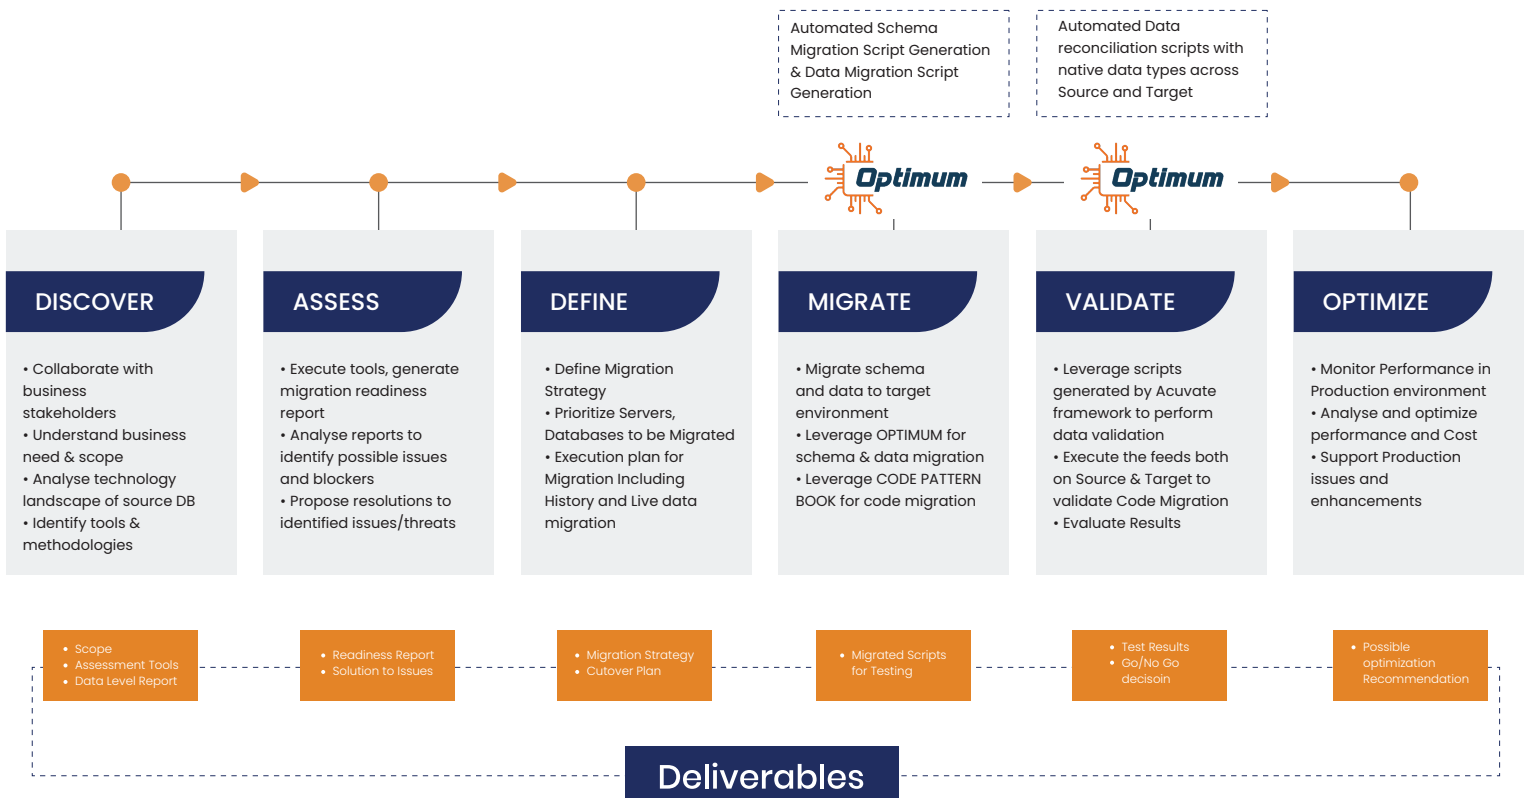

Reports Migration

Identify gaps in the reporting environment. Uncover and remediate data quality issues. Rationalize reports & dashboards to remove redundancy. Transform to Power BI and reduce operational cost.

Proven Path to Value is Designed with Expertise. Experience Matters.

Our Data Migration approach

Accelerators Are Incubated Expertise.

Optimum - The Optimized Technology Framework to Simplify, Expedite, Automate

Optimum - Acuvate's in-house migration and governance solution, simplifies, expedites, and automates the migration process and ensures successful migration with high accuracy. Optimum is scalable and can support large data & content migrations. It also supports a wide range of data sources including on-premises/open-source/cloud.

With Optimum, you can assess the complexity of the data, identify potential risks, get recommendations, predict costs, timelines, move data securely, and stay informed about migration progress and results.

Success Factors

- Migrate any DB to Azure
- Accelerate migration with assured quality
- Reduce Total Cost of Ownership (TCO)
- Save 50-60% on costs
- Automate Native Datatype Mapping
- Automate Schema Script generation and Data Migration
- Get Field level Reconciliation across Source & Target DBs
- Define threshold to be considered for row level validation

All Round Expertise Defines Acuvate Edge

100+ data analytics & power BI implementations	80+ cloud/Azure experts	30+ successful migrations and counting	Consultative, outcome-focused approach
Code-pattern book, best practices from previous implementations	Near ZERO downtime migrations	24/7 Support Infrastructure	AI-powered issue detection
Automated, transparent and predictable data migration	Robust and proven migration framework	50-60% Faster time to market	Robust data validation with multi-level testing
Database & data warehouse experts	No external licensed products used for migration	Optimum: AI-powered accelerator	Self-service reporting systems

Trust. Relationship. Demonstrated Value. That's Acuvate for you.

Acuvate is a global software service provider with over 14 years of experience in digital solutions, accelerating enterprise-wide digital transformation with our AI accelerators. We provide solutions and services that modernize, automate and support enterprise applications, IT systems, and infrastructure. We have a strong presence in the US, Europe, and APAC, where we serve multiple Fortune 500 companies. We specialize in Migration & Modernization of Content, Data, Infrastructure, and Digital Workplace Solutions such as AI-powered Chatbots, Intranets, Advanced analytics, & Trade Promotion Optimization.

Acuvate is a Microsoft Gold certified partner and has transformed 200+ reputed enterprises globally, including many Fortune 500. With our multi-skilled experts and packaged AI accelerators, we deliver unparalleled efficiencies and accelerate time-to-value for our customers.
